

**When you got the transfusion**

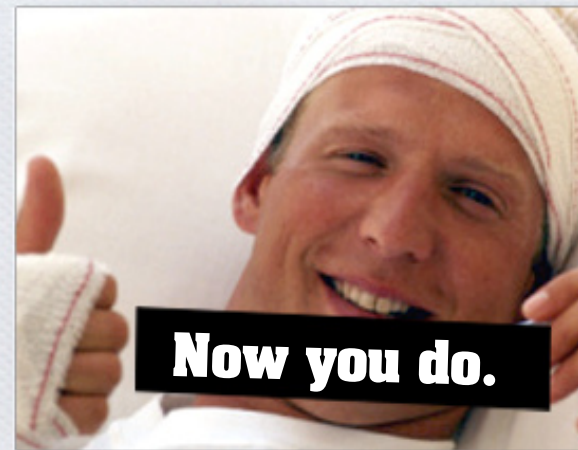

**you didn't know**

**Hep C came with it.**

**Now you do.**

**If you got a blood transfusion before 1992, it could mean you have Hep C today.**

**Even if you aren't showing symptoms.**

**If you got a blood transfusion before 1992, it could mean you have Hep C today.**

**Get tested. Get treated.
